Says Arrested Girl Here Betrothed To 4 Lovers At Same Time

That Miss Mary Rose Boone, pretty 25 year old Owensboro, Ky. girl, was a bear at writing love letters and a fast effective worker, was declared today by Roy Vandemark, attorney for Nicholas Bishop who has had the Kentucky girl indicted on the charge of stealing a \$1,000 note from him.

"She hit on all six cylinders in her vamping game," declared Vandemark who produced no less than two large shoe boxes full of letters which Miss Boone had written Bishop and which includes at least one letter to a Michigan, Kentucky and West Virginia man to whom Miss Boone is alleged to have been engaged. This collection includes a kodak picture in which Miss Boone and the West Virginia man are embraced. They will be turned over to the court during the trial of Miss Boone.

"I'm engaged to four men and I don't think I care for any of them," Vandemark is informed Miss Boone told an Elyria girl and which assertion is expected to spring one of the many sensations when the trial gets underway.

Wrote Many Letters
The two large shoe boxes full of letters were written to Bishop by Miss Boone. Vandemark says, in the course of their acquaintance covering less than a year and a half. Most of the letters came from Albin, Mich., where she was with her brother, J. B. Boone while he conducted a grocery store there but many bear the Owensboro, Ky. postmark. From the year and a half acquaintance must be deducted the nearly five months during which time Miss Boone visited her sister who with her husband was living at the Bishop home where Bishop maintains bachelor quarters. Bishop's wife secured a divorce about two years ago including custody of their boy and the bulk of the choice household furniture.

The letters appear to have been hastily written with an occasional one indicating some pains in which the penmanship was of excellent quality. The letters all began "Dear Nick" and contain many fervent love phrases. Many of the letters contain a series of crosses at the conclusion. Attorney Vandemark would not disclose the contents of all the letters but read a portion of one letter which he purported declares "If you don't want to get into a lot more trouble you had better stop where you are and stop dam quick." Vandemark characterized this letter as of a threatening nature and which he guards as one of his ace places in the trial.

Says He Was Drained
Other love letters which Vandemark would not disclose but admitted that practically every letter contained an appeal for money and to which Bishop usually responded until his resources became exhausted at which time, one of the letters suggested that he get the money now.

Mormon Pastor Is Trapped In Liquor Raids

HUNTINGTON, W. Va., Feb. 25.—Twenty-two were captured in a sensational moonshine raid completed last night in McDowell county by federal agents from the local prohibition office.

A negro mormon preacher, who had three large stills and was barricaded in a log cabin in the mountains surrounded by barbed wire entanglements was among the victims of the raid.

Three women were included

HENRY SCHULTZ, 88, DIES AT HOSPITAL

Henry Schultz, 88, one of the old German residents of the city, died at Memorial hospital last night after an extended illness. The deceased lived with J. H. Block, 434 W. 12th street.

The remains were taken to the Wilkins-Hurst parlors, and will be taken to his late home where a short service will be held Monday afternoon at 1:30 and at St. John's Lutheran church at 2 o'clock. Burial at Ridgeland.

THREE SUITS ON NOTES

The Lorain County Electric Co. has filed three suits in court in which judgement is asked on three notes for \$112 each. The defendants are John Balors, F. H. Lewis and Peter Danciszko.

HIS CRIME TOO LOW FOR BRUTAL PRISON INMATES

Herbert Brink.

Herbert Brink, murderer and one of the principals in the famous "Tansley" case growing out of the war between cattlemen and sheepmen in the west, has been returned to the Wyoming penitentiary to serve out his commuted sentence after being accused of a crime which has made him an outcast even in the penitentiary. Brink's sister was found in desperate straits in British Columbia trying to support three children of which, she charged, Brink was the father. Brink willingly agreed to waive extradition when apprehended in Canada.

MILK PRODUCERS SET MARCH PRICES

CLEVELAND, Feb. 25.—Farmers are to be paid \$2.15 a hundred pounds for milk deliveries in Cleveland through March, or about 18.8 cents a gallon, it was agreed at a meeting of the price committee of the Ohio Farmers' Co-operative Milk Co. with officers of the Telling-Belle Vernon Co. at Hotel Winton, Friday.

This is the same price paid during February. C. W. Palmer, member of a committee of the Chamber of Commerce, which is investigating the milk situation, was at the hearing. A representative of the chamber has just returned from Pittsburgh where a study was made of the price paid distributors for their milk and the retail selling price, as compared with that prevalent in Cleveland.

MRS. MAUDE STACEY FILES DIVORCE SUIT

Mrs. Maude Stacey following her suit for \$50,000 damages against Mrs. Bessie Smalley, for alienating the affections of her husband Harry C. Stacey, filed divorce proceedings in court yesterday afternoon.

She charges him with extreme cruelty, stating that he has sworn and cursed at her, has been absent from home, and carried on a clandestine correspondence with a woman under an assumed name. The couple have two children.

She states that Stacey is a partner of Dalrymple & Stacey, who run a restaurant at Lorain, and asks the court to issue an injunction restraining him from disposing of any of his property.

LORAIN WOMAN ASKS COURT FOR DIVORCE
Mary Tuzes is asking the court to grant her a divorce from Nick Tuzes, charging him with gross neglect of duty and extreme cruelty. She alleges he will not work, and she has to depend on the charity of friends to support herself and five children.

She also states he has frequently assaulted her, and on November 3rd beat her cruelly. She asks a divorce, custody of the children, and alimony.

Plan to Avert Mine Tie-up April 1, by Calling Operators and Miners Into Conference

WASHINGTON, Feb. 25.—The government's first move to prevent a nation wide coal strike on April 1—the calling of a conference between coal operators and miners—will be taken within a day or two, it was learned officially at the department of labor today.

Secretary of Labor Davis will call to the attention of the two groups in the present controversy that the bituminous wage award of 1920, stipulated that an interstate joint conference be held prior to April 1, 1922, to discuss any difficulties that may exist between the employers and the workers.

Inasmuch as there is no super-organization existing among the operators, it is probable that Secretary Davis will informally call the attention of individual operators to the existing pact between them.

Officials today were confident that there would be little difficulty in bringing about a conference between the miners and operators. It was said in some quarters that as a result of this conference individual agreements probably would be entered into with the various states to avert the walkout April 1.

BRITISH TO DEFER IRISH STATE BILL

LONDON, Feb. 25.—The British government plans to delay final passage of the bill officially constituting the Irish free state until after the Irish election, it was learned in Downing street today. The bill already has passed in the house of commons upon first and second readings.

It was pointed out that if the republicans win the Irish election the present bill probably will be useless as the republicans are opposed to it. With Eamonn DeValera back in power in Ireland it would be necessary for the British cabinet to open new negotiations entirely, the opinion of British officials.

Events in Ireland in the last week make Britain unwilling to put the Irish free state bill upon the statute books because of the loss of prestige if it is repudiated by the Irish election.

It is probable, however, that Britain will continue to retire

SUCCEEDS KENYON AS U. S. SENATOR

Charles A. Rawson.

Charles A. Rawson of Des Moines, Iowa, is the new senator from that state. He was appointed recently by Governor Kendall to fill the seat vacated by Senator Kenyon, who has accepted an appointment from President Harding to a federal judgeship in Iowa. Rawson is chairman of the Republican central committee.

ARRESTED WOMAN FOR PULLING GIRL'S HAIR

Alleging that Mrs. William Cree, 112 Mound street, pulled her daughter's hair, and shoved her down an embankment causing her to be considerably scratched up by bushes, Joshua Page, a neighbor, has Mrs. Cree arrested in police court. The affair is the result of trouble between the two families that has been brewing for some time. Mrs. Cree has plead not guilty and the case will be heard by Mayor Jones on Monday morning.

VERSAILLES, France, Feb. 25.—In the raw, misty dawn Henri Landru, France's arch murderer, was beheaded on the guillotine before the gate of St. Pierre prison today. He had been found guilty on November 30 of the murder of ten women to whom he had made love and offered marriage, and a boy, the son of one of his feminine victims.

Landru protested his innocence to the very end.

"I will be brave," were the last words he entered just before the knife fell.

It was eight minutes after six when Landru's head rolled from the guillotine block. He carried with him into the great beyond his secret of the missing women he was convicted of killing for their savings.

A crowd of morbidly curious persons, including numerous women, had gathered before the guillotine before daybreak.

Hands Were Tied.
Landru had been awake in the prison since four o'clock. When he was led before the gate he stared into the crowd, but if he was looking for his real wife and his children, he was disappointed. They were not present. At 15 minutes after five a little group of prison officials entered Landru's cell and told him to prepare for the end.

The condemned man's hands were behind his back and his feet were loosely hobbled permitting him to shuffle down the stairs from the third cell row.

Once Landru remarked to the executioner and his assistants who were leading him to the guillotine: "Please don't hold my arms so tight."

The doomed man spoke cheerfully and pleasantly.

As is customary in France Landru signed the prison register on his way out.

To expedite the work of the executioner, a high power light was burning in the prison court flooding the guillotine with its rays.

Landru stopped short for a moment and his body threw a heavy shadow across the foot of the death scaffold.

Landru was pale, but stood erect and appeared cool. His beard had been shaved off under the chin so that the hair would not interfere with the knife. For perhaps ten seconds Landru stood

Three of Seven Pacts Presented For Final Fight on Floor—Reservation Motion Is Defeated

WASHINGTON, D. C., Feb. 25.—The first step in pushing the conference treaties through the United States senate was accomplished today when the foreign relations committee, meeting behind closed doors, ordered three of the seven pacts reported to the senate. These were:

1.—The four powered Pacific treaty, replacing the Anglo-Japanese alliance with the Brandegee-Hardings compromise reservation attached.

2.—The five powered naval treaty between the United States, Great Britain, France, Italy and Japan.

3.—The submarine and poison gas treaty between the same five powers, abolishing the use of gas in warfare and limiting the uses of submarines.

China Pact Remains.
The action of the foreign relations committee, taken after a number of tumultuous and wrangling sessions, leaves only the various treaties affecting China still in the committee's hands.

The vote to report the four power treaty was ten to three. The negative votes were those of Senators Borah of Idaho and Johnson of California, republicans.

MANY ROTARY CLUBS PLEDGE CRIPPLES AID

COLUMBUS, Feb. 25.—A joint pledge to solicit the aid of municipal and county officers in their respective home districts in the movement designed to provide adequate educational facilities and medical and surgical treatment for Ohio's 12,000 crippled children was taken by the representatives of 44 Rotary clubs of Ohio who attended a conference held at the hotel Deshler here by members of the Ohio society for crippled children.

Honoring Edgar F. Allen, Elyria, re-elected president of the society, who is devoting all his time to looking out for the welfare of unfortunate children, it was decided to observe the week of May 8 as "crippled children's week" throughout Ohio. May 8 is President Allen's birthday.

Rotarians will urge their local county and city officers to co-operate in administering funds authorized by the state for bettering the condition of crippled children.

Dr. R. B. Coffield, Cincinnati, and Charles Feibach, Toledo, were chosen vice president; E. J. Howenstein, Elyria, treasurer; and E. M. Bateman, Cleveland, secretary.

Plan Business Code To Remove High Cost From Building Work

MANY WASHINGTON NOTABLES NAMED IN WOMAN'S SUIT

Mrs. Alma C. Smythe.

Mrs. Alma C. Smythe of Washington has sued Leighton C. Taylor, secretary to the late Boies Penrose, for \$100,000 damages for alleged assault and battery. She charges that when she went to the senate finance committee rooms to see Penrose last May concerning a position as a campaign worker Taylor hugged and kissed her. Taylor denies the charge. "She kept bothering us until I put her out of the office," he asserts.

SUICIDES WHEN HEAD IS LAID ON RAIL TRACK

TOLEDO, Feb. 25.—Geo. Mould, 68, foreman for the Toledo Stove and Range Company, removed his glasses, carefully laid them on the ground, then placed his head on the track and allowed a New York Central train to cut it off this morning. A widow and two daughters survive.

BULLETINS

CHICAGO, Feb. 25.—With abatement of the fury of the storm that has raged throughout five states during the past four days, leaving virtually no center northward buried under snow, reports of damages suffered, and lives lost were slowly filtering into Chicago today. These reports placed the death toll at 13 and losses that will aggregate millions.

NEWPORT NEWS, Va., Feb. 25.—The last three bodies of Roma victims left here today for their homes. They were Major John G. Thorneil, of Sydney, Ia., Lieutenant Clifford E. Smythe, of Chicago, and Sergeant Roger C. McNally, of Philadelphia. Each body was accompanied by relatives and a military escort.

LONDON, Feb. 25.—Princess Mary, daughter of King George and Queen Mary today elected to spend her last week end before her marriage at Buckingham Palace. She has declined all invitations to appear in public again before her marriage to Viscount Lascelles in Westminster Abbey on Tuesday.

PARIS, Feb. 25.—The first conference of the British and French premiers since M. Poincare came into power as head of the French cabinet takes place this afternoon, probably at Boulogne. It was understood discussions would relate to the Genoa conference, the future policy of the allies toward Russia, the advisability of going into the German indemnity issue at Genoa and the proposed Anglo-French treaty of alliance. Mr. Lloyd George is due to arrive at the meeting place the middle of the afternoon and the conference may last only five or six hours.

BERLIN, Feb. 25.—A note was received from Italy today formally notifying Germany that the Genoa economic conference has been postponed. It was to have opened March 5.

WASHINGTON, Feb. 25.—A new business code for union labor and for employing building contractors, is the aim of the Department of Justice today, in a country-wide campaign to remove the high cost element from construction work.

The government's plan, as announced by Attorney General Daugherty, in making public the terms of the consent decree agreed to by New York building trade unions, may take the form of a daring attempt to uproot the "closed shop" as an American institution.

There will be no effort by the government to dictate either the hours or conditions of labor, but the attorney general today held forth the definite and unveiled threat that indictments are due to be returned by grand juries against both union leaders and contractors' association members, if they fail to yield to the demand of the Department of Justice to cease practices that are held to be stifling competition in building jobs.

In almost every important business center in the United States negotiations are to be begun between federal district attorneys and representatives of union labor. These conferences will seek, in a spirit of compromise or by negotiation to gain promises that union labor will no longer maintain their understandings with contractors whereby independent employers and the public in general, times of discrimination or favoritism, in the purchase of materials or in other ways.

GOOD LIQUOR GOES DOWN SEWER DRAIN

When Patrolman Sweet visited the loop saloon yesterday he pushed a button that he had never seen before in the place. Immediately there was a scurrying around upstairs followed by a gurgling sound coming down through a drain pipe.

Nothing could be found, but one of the inmates said, "Dam, there goes \$25 worth of good liquor." The proprietor's wife acted according to her instructions and the evidence was not forthcoming when the officers went upstairs.

Three Afflicted With Hookworm

MIDDLETOWN, Feb. 25.—Three persons, Mrs. Alice Hutton, 1107 Walnut street, her son Raymond, age 16, and her daughter, 15 today declared by Dr. D. F. Gebner, to be suffering from hookworm.

The announcement was made following receipt of an analysis made by the state department of health at Columbus. This is the second case of hookworm ever reported in Ohio, according to Dr. Robert Boudreau, state epidemiologist.

PROFESSOR MILLER TO ADDRESS FORUM

The open forum meeting on Sunday afternoon will be addressed by Prof. H. A. Miller, of Oberlin, who was a delegate to the recent Sociological Convention held at Pittsburgh.

He will speak at the high school auditorium on "False Patriotism." Prof. Miller's faculty of presenting his case before an audience is well known, and those who attend can rest assured that they will be repaid. The meeting takes place Sunday afternoon at 3 o'clock.

Charles Sartor Loses His Mother

The death of Mrs. J. H. Sartor, mother of Charles Sartor, of this city, took place yesterday at her home in Sandusky.

She is survived by her husband, four sons and a daughter. The funeral will take place at the Sandusky home on Monday afternoon at 2 o'clock.

SIZE AND PERFECTION

A student of city government some years ago declared that the most ideal size of a city, all things considered, was a city of not over eighty thousand people. He took into consideration all that goes to make for fair business, the health and happiness of people, and their intellectual and moral development.

As far as living is concerned, the ideal place to live may be even smaller than a city of eighty thousand. A city the size of Elyria, in many respects, is better for residence purposes than a city of fifty or sixty or eighty thousand.

To be sure, there are some forms of entertainment and some advantages which are not procurable in a small city which are in a larger one, and so this writer put the city at about eighty thousand, because there would be sufficiently large groups interested in any particular line to make it possible to have entertainments, or to have kindred and noted spirits visit their city.

We are prone to boast of size rather than perfection. If we can point to the largest farm, the highest sky scraper, the biggest factory, the greatest number of workmen employed, we are inclined to think we have something of great interest. We are particularly inclined to do this in regard to our country, its stupendous size, its magnificent scenery, its exhaustless mines, its vast prairies.

Yet bigness is of very little value in itself. Bigness does not develop the soul, or the body, or the mind. It affords opportunity. It challenges resources. But it does not develop character or breed thrift or care.

In the small Greek villages and cities, separate and distinct, without any nationalism worthy of the name, there was developed the most perfect physical beings, many intellectual geniuses, and an art that has been the model of the world to the present hour. But those Greeks did not worship at the shrine of bigness, but at the shrine of moderateness and of perfection. We are not attempting to explain the reason for this. We do not know. But certainly we can see that mankind has striven as hard to achieve the good opinion of his few neighbors and friends in these small and probably obscure points, as they do to achieve, when the eyes of the world are upon them.

It would be worth our while to learn the lesson of perfection and modesty from their success.

ENFORCING LAW IN THE NAVY

How prohibition is enforced in the navy ought to interest federal officers and courts, as well as all private citizens of peaceful nature. Five petty officers, found guilty of smuggling alcoholic liquors into the United States from Cuba, have been sentenced to reduction to the lowest grade of the navy, imprisonment for one year, and dishonorable discharge. That is stern enough to deter others. Enforcing respect for law is largely a matter of exemplary punishment, as the layman sees the situation. Men who are not reached by reason or conscience can be held back by fear. Prison sentences strike terror into the hearts of all but the most callous.—East St. Louis Journal.

WE LOVE THE EARTH

Probably millions of people have made journeys in aeroplanes. We are among the late ones to experience that joyful sensation. All we have to say about it is, after being up in the air between four and five thousand feet, and travelling at the rate of one hundred and thirteen miles an hour, that hereafter when we see any stunts performed in the clouds, we believe that hats should be removed, for we are either in the presence of great genius, or we are about to attend a funeral.

We love this old earth better than we ever did in our whole life, and our feet will be firmly planted on it hereafter.

THE SLUMP BROKEN

Roger W. Babson declares that the slump is broken for the region in which we are living here.

Mr. Babson comes to conclusions from the perusal of cold and hard figures.

We are more than willing to agree that Mr. Babson has reached a correct conclusion. We have confidence in the immediate future.

CARBO COAL!

A CLEANER AND BETTER FUEL THAN HARD COAL
WHY?

Smokeless, because every bit of gas expelled from the fuel is burned, leaving very little to escape as smoke. Smoke is wasted heat energy that you are paying for, hence Carbo Coal is economical.

CARBO COAL is clean burning, and clean to handle—little or no waste—a further economy.

CARBO COAL lasts longer and gives more heat per pound than hard coal.

It requires less draft to operate.

It has less ash, as Carbo Coal is prepared fuel—and bone and slate are naturally eliminated.

Hard coal contains at least 15% bone and slate. Neither one of these represent heat producing elements; they are nothing but ash. Carbo Coal, on the other hand, is absolutely pure; no bone or slate.

There is more fixed carbon in Carbo Coal than in hard coal, and carbon is the heat producing element in all fuel—prepared or raw.

It is uniform in size—meaning better burning qualities. It has a much higher analysis than hard coal, and is most efficient in either Furnace, Boiler, Base Burner, Cookstove or Open Grate. Remember, in purchasing Carbo Coal, you are buying heat producing fuel, not ash and smoke producing elements that are wasted heat energy, and an integral part of raw fuel.

Carbo Coal responds readily to draft, and can be brought from a slow fire to an intensely hot blaze in a short time, merely by increasing the draft.

KOMICAL TELEGRAMS

By JIM ARMITAGE, Himself

There's some talk of postponing "Princess Mary's" wedding, owing to the sickness of her mother, the Queen—Seems as though they're starting that "mother-in-law" stuff rather early.

And Mabel Normand's mother is now taking care of her—It's about time.

The council was having a meeting Thursday night and the K. P. minstrels are rehearsing in the room above. Carl Mueller started making a speech and the minstrels started singing. He looked over at Symons when they were doing "Dapper Dan," but when they sang "I make mine myself," it was too much for Carl—he joined in the chorus and the speech isn't finished yet.

Andy Walkden of Tim Terrell's "BOOSTER" team heads Elyria townsmen with score of 626—Congratulations Andy—But O Tim, aren't you ashamed of yourself?

They're threatening the life of Mayor Oles of Youngstown—He says he's ready to die—Now it this was the mayor of Lorain, I wouldn't blame him.

They pinched a fellow in Chicago for bootlegging. He said he didn't read the papers and didn't know the country had been voted dry. They ought to elect that man President of the Alibi club.

Another woman in Cleveland poured whisky in the sink, when officers discovered her in the act of selling it. She was fined \$100 for destroying the evidence. It's selling for twenty dollars a quart, she ought to be fined.

Miss McCormick, granddaughter of the oil king wants to marry Swiss livery stable owner—And it's causing an awful stink in the Rockefeller family.

I can't see her idea in going over to the cheese country and picking out a native forty-eight years old, when Johnnie Gray and Ross Baum are still unattached.

Why if she'd been up to the American Legion ball, I could have shown her dozens of fellows a girl with her money would have been able to interest—patent leather hair in everything.

If she does marry him and they pull a big wedding like Princess Mary is planning—God knows what gasoline will cost.

WM. HILLYER, ELYRIA, IS PIONEER BUILDER OF ELECTRIC LINES

The Youngstown Vindicator contains an interesting account of the operation of the first electric street car service in the city, the system being put under the guidance of Superintendent "Bill" Hillyer now of this city. This was in 1891. He also built the power house and car barns, and installed steel rails of standard gauge, and, according to the paper, did extra good work.

Hillyer then became superintendent of the Cleveland & Southwestern system, and helped to build that road from Cleveland to Oberlin, and then to Wellington. In fact, he was one of the

pioneer electric street railway men in this section of the country. After his resignation he became county commissioner and is now an inspector of road building in this county.

Although Princess Mary is to be wed in Westminster Abbey, the marriage will be registered in the archives of the Chapel Royal, St. James Palace. The register here, a bulky-morocco-bound volume, is in custody of an official known as the Clerk of the Closet. In it are recorded the baptisms, marriages, and burials of all members of the royal families of England from very early times.

"millions now living will never die"

—JUDGE RUTHERFORD

THE MOST MOMENTOUS EVENT OF EARTH'S HISTORY is the near establishment of God's kingdom among men; but, strange to say, this dominating theme of the Bible has been almost entirely overlooked by those who profess the Christian religion. Every one of the inspired writers testified concerning a time of everlasting happiness for the human race—"times of restoration" of lost blessings and possessions. Jesus and his Apostles preached that this gospel of blessing is for the vast majority; not a message of woe for all except a few.

THE KINGDOM OF GOD which they heralded is the same as foretold by the prophets in such thrilling and positive language. Not a mysterious, intangible arrangement having no meaning for the toiler and the sufferer, but one which will bring such practical and understandable things as complete health, beautiful homes, luxuriant vegetation, sublime climate, righteous laws and—greatest of all—unending life upon the earth. THE SCRIPTURES are clear in their proclamation that many people will be so favored as to live through the present transition period when mankind passes from the thralldom of Satan's misrule to the glorious liberty of the kingdom of God, and these will actually never die. It is your duty and privilege to inform yourself concerning the cause of the present universal unrest and the wonderful blessings to follow by attending the lecture by

CHICAGO BLAST IS FELT FOR 50 MILES

CHICAGO, Feb. 25.—Chicago's known shelling and its hair curled back on its scalp today, as it was learned that the explosion that shook almost the entire city and an area for fifty miles around was not an outbreak of bomb-throwing terrorism. The explosion resulted when several tons of dynamite in the stone crushing plant of the Consumers' company at McCook, southwest of the city, exploded.

Although the blast was one of the most terrific ever felt in this section, as far as has been learned no one was killed and only one man injured.

Property damage will amount to hundreds of thousands of dollars. Officials of the consumers' company declared that the explosion was accidental. Sixteen tons of dynamite were stored in the powder house when the explosion occurred. The buildings of the quarry were blown to bits and rocks and timbers were scattered over a radius of a mile. Thousands of windows were smashed and hundreds of buildings in Chicago and surrounding territory rocked with the force of the detonation.

Had the explosion taken place a few minutes earlier it undoubtedly would have resulted in an appalling tragedy. Ten minutes before the dynamite let go the "Missionary" one of the crack passenger trains of the Santa Fe railroad, passed within 150 feet of the powder house.

It was announced that thirty tons of dynamite were stored in the powder house when the explosion occurred. The buildings of the quarry were blown to bits and rocks and timbers were scattered over a radius of a mile. Thousands of windows were smashed and hundreds of buildings in Chicago and surrounding territory rocked with the force of the detonation.

Probably Fatal Cutting Scrape At Lorain Today

LORAIN, Feb. 25.—A possibly fatal stabbing affray took place at 10 o'clock this morning, at the International Restaurant, corner of Pearl avenue and 28th street when Stanley Rageski, 27, who in St. Joseph's hospital with a knife wound over his heart, and J. N. Roberts, 44, who is being held by the police to await the outcome of his injuries.

According to Gus Brenner and Frank Novak, who are being held as witnesses, Rageski came into the restaurant while intoxicated, and was thrown out. He came back in and struck Roberts in the face. Roberts then drew his pocket knife and stabbed him. Physicians state that Rageski is in a serious condition.

Head Severed. While he hesitated the chief executioner and his assistants forced Landru forward, bending his head upon the "sliding board." The instant the doomed man's head slid into the fatal aperture the knife dropped and Landru's head rolled into a basket partly filled with detonation.

Had the explosion taken place a few minutes earlier it undoubtedly would have resulted in an appalling tragedy. Ten minutes before the dynamite let go the "Missionary" one of the crack passenger trains of the Santa Fe railroad, passed within 150 feet of the powder house.

WELLINGTON TOWNSHIP TO IMPROVE ROADS

Roy H. Cope, settlement clerk in the county auditor's office at London last night called to consider the cinchering of the dirt roads of the township.

The question was thoroughly discussed and Mr. Cope explained to those present what they would have to do in order to have the work accomplished. A committee of six was appointed to confer with the township trustees, the county auditor and the prosecutor, and to go over the premises to decide just what ought to be done.

THREE LORAIN MEN HELD AT CLEVELAND

CLEVELAND, Feb. 25.—Bert Braun of 221 Sixth st., Lorain, was in police custody in Mount Sinai hospital Saturday, badly bruised. He was in an auto driven by Will F. Seher Jr., of 329 Ninth st., Lorain, when the machine collided with a trolley pole on Stearns-rd.

Seher was arrested on a charge of driving an auto while intoxicated. Arthur Burgett of 218 W. 23rd-st., Lorain, was picked up on Euclid-av. after he had fallen out of the auto.

troops from Ireland and to turn over Irish administrative affairs to the provisional government at Dublin.

Arthur Griffith, president of the dail Eireann (Irish parliament) and E. G. Duggan, formerly chief liaison officer of the Irish republican army, conferred at length with Clonliffe secretary Winston Churchill, who is chairman of the government committee that is working out the details of the Irish settlement. Griffith and Duggan were among the signers of the Anglo-Irish treaty. All the signers were invited to London to explain the agreement reached by the hostile factions in the Ard Fheis, but only two of them came.

Churchill said that it was important that the government should have a clear understanding with the Sinn Fein on Irish matters. It is likely Griffith will remain in London until next week so he can confer with Premier Lloyd George when the latter returns from France.

British officials say they were anxious to avoid a hitch with the Irish in view of the progress that already has been working out the settlement. They declared that if Griffith is assured that the Ard Fheis agreement will assist the provisional government to establish itself firmly the British government will not oppose postponement of the Irish election for three months.

Lord Fitzalan, British viceroy to Ireland, came to England on the same boat with Griffith and Duggan. Solicitor Hugh Kennerly, K. C., is acting as legal adviser to the Irish conferees.

Griffith and Churchill were closeted for three hours. They will meet again tomorrow. Neither would issue a statement. Later in the day Griffith conferred at the war office upon the evacuation of British troops from Ireland.

BELFAST, Feb. 25.—A Protestant and a Roman Catholic were shot dead in two outbreaks of street disorders during the night.

LANGLEY FIELD, Va., Feb. 25.—The army board inquiry into the Roma disaster has established that the two forward engines were running when the airship crashed. It was learned today. Had these engines been "cut out" as Lieutenant B. T. Burt, the pilot signalled, the accident might have been avoided, it was stated. The Roma at the time was "lighter than air" and could have risen by its "buoyancy" despite the broken rudder.

CINCINNATI, Feb. 25.—Peter Schraffenberger, fire marshal, is dying of injuries suffered last night when his auto crashed into a pole. He was returning from a fire when the accident happened.

New trial for Landru, but the plea was rejected by the government. Near Landru's villa was a laye. Neighbors said they had seen Landru row out into the middle of this lake and drop bundles into the water. The lake was dragged, but nothing incriminating was found. Other neighbors told of seeing Landru return to his villa after long absences and later clouds of thick oily black smoke would pour from the chimney. Landru explained by saying he was burning waste fat.

In appearance Landru was frail with a bald head and a thick black beard. He took pains to be well dressed in court.

WELLINGTON WELLINGTON MAN HELD ON BURGLARY CHARGE

WELLINGTON, Feb. 25.—Jesse Elv and James Blanco were arraigned before Mayor Wells. The former was charged with having broken into the freight houses of the W & L. E. R. R. at Brighton and at Wellington. From the Brighton freight house he stole \$100 worth of boots and shoes, brought them to Wellington on a hand-car. From the Wellington freight house \$320 worth of dry goods were stolen.

Ely pleaded guilty, and waived an examination and signed a confession as to the details of the crime. Blanco was charged with having received stolen property, for the boots and shoes were found in his possession. He pleaded guilty and was examined. He was bound over to the grand jury along with Ely and was released on a \$500 bond.

The dry goods were found in the home of a sister of Ely, Mrs. Cornili, where they had been placed under the mattress of a bed. The arrests in the case were brought about by the railroad detectives working in conjunction with local authorities.

Orders Pacific

(Continued from Page One)
cans, and Shields, democrat, of Tennessee.
The compromise reservation to the Pacific treaty agreed upon by President Harding and Senator Brandegee, republican of Connecticut, was adopted by a vote of 10 to 3. The votes cast against it were those of Senators Kellogg, republican of Minnesota; Pomerene, democrat of Ohio, and Williams, democrat of Mississippi.

The vote to report the naval limitation and the submarine poison gas treaties was unanimous. No reservations were attached to them, the reservation of the Pacific being the only one adopted.

The supplementary agreement to the Pacific treaty, taking the home land of Japan out of it, was ordered, reported by a vote of 12 to 1, Senator Borah voting against it.

Senator Lodge announced that as soon as the Chinese treaties were ordered reported, which he expected would be done early next week, he would report all seven treaties together to the senate.

Reservations Defeated
The original Brandegee reservation, to which President Harding objected was defeated by a vote of 9 to 4 when it was offered by Senator Johnson. Those voting for it were Senators Borah, Johnson, Moses and Shields.

A motion by Senator Pomerene to strike from the Harding Brandegee reservation adopted the words "no alliance" was defeated by a vote of 10 to 3. Senators Pomerene, Kellogg and Williams voted for the motion.

A new substitute offered by Pomerene for the Harding Brandegee reservation was defeated by a vote of 12 to 1. Pomerene himself casting the only vote for it.

10:40 morning worship. The last in the series of sermons on "Great Bible Doctrines—Justification," will be preached tomorrow morning. A special message to children, and permitting them to leave just before the sermon, is now a part of the morning program.

6:30 Senior and Intermediate C. E.

7:30 Evening Worship. "The Place of Christian Character in the World." The choir will sing.

SECOND CONGREGATIONAL

Wm. Plummer, Pastor.
The officers and teachers of this school will welcome each of the three hundred who were present last Sunday.

Come, this Sunday, a. m. at 9:45. The hour spent in Bible study will be helpful to all who come. And how much we need this knowledge these days, that we may know how to live, and practice those things which are pleasing in God's sight. Come and stay through the hour of worship, 11:00 o'clock. The pastor always brings helpful messages and food for thought.

The films will be used in the evening at 7:15, presenting the "Prince of Peace." Those who desire a deeper knowledge of the Bible have here, at this hour a splendid object lesson.

GRACE LUTHERAN
Corner Princeton ave. and E. River Street

Harry C. Muhl, Pastor.
Sunday school, adult Bible class, 9:15 a. m.

ST. ANDREW'S EPISCOPAL.
Edwin B. Redhead, rector.

Quinquagesima Sunday or about fifty days before Easter. This is the Sunday before Lent and the lessons for the day direct our

thoughts towards this season of praying, fasting and almsgiving. The morning sermon has for its topic, "Some Aspects of Charity."

This subject is selected with the Lenten season in mind and will suggest some Lenten endeavors. At this service the choir will sing as an offering, "Hear My Cry," by Morse.

In the evening the sermon topic is "Moses and His Wise Choice." In the church school mite boxes will be distributed for the purpose of accumulating Lenten denial money all through this season of self denial. It is hoped all members will be present.

The public is invited to all services.

EAST SIDE COMMUNITY SERVICES

O. B. Githens, Pastor
Garford School Building

Life is worth while because there is a good God overlooking and guiding it. The more man enters into co-operation with God the sooner will His will be done on earth and Jesus' ideal of brotherly love be established.

But who is God? What is He like? How can we come into contact with him? Those are questions that will be discussed in tomorrow afternoon's service at 3:30. A cordial welcome is extended to all to worship in these services.

The Sunday school work which is based on the modern system of graded lessons is open to all the children of the community. They are all invited and will be welcomed by the different teachers.

Such work begins at 3:00 p. m. under the guidance of Mrs. Vida Githens, superintendent of the beginner and primary department and Mrs. Silver Day, super-

intendent of the junior department.

OBERLIN

WILL FURNISH FATHERS FOR DADLESS BOYS

OBERLIN, Feb. 25—Monday night, Feb. 27, at the James Brand house, 6 o'clock, is boys' night, but the boys are not to come alone; their fathers are expected to be there with them. If every man who likes boys will bring a boy, his own or somebody else's boy, he will get the everlasting friendship of that boy.

The program of talks, stunts, also the dinner, will be of the best. Tickets are 75 cents each, procurable at the postoffice, Rev. J. L. Thompson, Henry Bows, the banks and B. & W. Variety Store, A. G. Comings & Son, and Yocom Bros. store.

It is hoped that any one who knows of a boy not provided with a Dad will leave his name at the store of A. G. Comings & Son.

OBERLIN OPPOSES STATE WITH MILE RELAY TEAM

OBERLIN, Feb. 25—Coach Metcalf announces that Clippson, Smith, Mayer and Wilson will probably run in the mile relay against Ohio State Saturday night at Columbus. This event is to be the last on the program and the feature of the Relay Carnival.

At present it is almost certain that Cincinnati will be the only opponent of State in the four mile relay. However if Oberlin is allowed to enter a team Dietrich, Reed, Penfound and Hines or Clippson will run.

Steer and Price are entered in the hurdles. Price in the high jump and possibly Gorsuch in the 50 yard dash.

Oberlin's chances of taking the mile relay received a blow when it was learned that McPhee has found his cold and had knee too big a handicap in getting into condition and consequently will probably be unable to run.

INTERNATIONAL NIGHT TO BE TUESDAY, MARCH 14

OBERLIN, Feb. 25—Pictorial costumes and decorations are to bring the atmosphere of foreign lands to Oberlin when the Cosmopolitan club stages the annual International Night in Finney chapel, Tuesday, March 14, at 7:30. The largest crowd in 15 years is said to have packed the chapel for the 1921 performance. Plans already on foot look toward an even more elaborate program than last year's according to those in charge.

The committee in charge of the celebration is as follows:

I. I. Ma, '22; K. H. Higuchi, '24; Armenuhi Sharianian, '22;

Kazim Khedery, '24; C. K. Lee, '23; C. K. Wong, '24.

Hikes, social events and trips to nearby points of interest are included in the outline of activities for the year announced recently by President Everett Curtis, '23. These events are to occur regularly on the first Saturday of each month. The first hike of the program was taken Saturday afternoon, Feb. 18.

Out of town trips are to include a visit to one of Cleveland's largest theaters, March 18, an inspection of the Cleveland Indian Reservation, Feb. 25, and of the Goodrich Rubber Company's Akron establishment.

VICTIM IN SHOOTING

OBERLIN, Feb. 24—Mrs. Alice Streator a resident of Painesville, was shot by Jack Bailey, Wednesday. Shortly after he turned the weapon upon himself and he died an hour later. The shooting was the result of jealousy on the part of Bailey.

Mrs. Streator underwent an immediate operation but her condition is very critical. She was separated from her husband, who with their two children reside with his sister, Mrs. Bell, on Locust street. Streator was formerly employed by the C. S. & C. railway.

WELLINGTON

MAD DOG SCARE.
WELLINGTON, Feb. 25—The mad dog scare is again appearing

in Wellington. Thursday the strange action of a dog which snarled at Marshall Davidson was ordered killed by the authorities who have not forgotten the late mad dog epidemic of last summer. The dog was chased and shot on West Main street. There was no license tag on him and the owner is unknown.

SURPRISE MRS. FINKLE

WELLINGTON, Feb. 25—Wednesday evening thirty-two former friends and neighbors from Huntington motored to Wellington and surprised Mrs. O. F. Finkle on South Main street.

The surprise was in honor of Mrs. Finkle's birthday. The guests brought a sumptuous birthday supper with them and presented their hostess with beautiful gifts.

do luxe, beautifully costumed, and with an artistic cast all the way through. This film is sure to be a popular one with theatergoers.

American—"The Man Worth While," featuring Joan Arliss. She

plays the part of a timber girl, born and bred deep in the forest of the great Northland. Romaine Fielding, who plays the part of the Man Worth While, has won two popularity contests conducted by two leading motion picture magazines

Strand—"The Firefly of tough Luck," a feature film with Alma Reuben and Walt Whitman in the stellar roles. This is a splendid film that the public will desire to see

Dreamland—"Midnight Riders"

a thrilling western picture will be shown on Sunday, and on Monday, "Youth's Melting Pot," will be featured. Both these films are first class, and there will also be excellent comedy films

Colonial—This will be Jazz Week beginning Sunday. This will be a gigantic reveal of laughter, melody and beauty. Lyda Killoran, Cleveland's leading juvenile entertainer will be present, and Cheatham's Jazz orchestra will keep your feet from going to sleep. Both come direct from State Theater, Cleveland. It is expected that this aggregation will be a strong drawing card all the week.

SUNDAY'S CONCERT
Rialto—Many artists of reputation make up tomorrow's Sunday Concert program at the Rialto, theatre. Each and every act, being of sufficient reputation to be classed as a headliner. The following acts are underlined for appearance. Lawrence Brothers and Tholman, offer what they call "Event in A Club Room," and which is really one of the fastest and cleverest juggling acts on the American stage. Sheehan and Richards, two bright stars of musical comedy, in an original hit, entitled "Tea for Two." Irene Myers, who up to her marriage and retirement from the stage a few years ago was the most beloved and popular stock actress on the American stage has been induced by popular demand to make a short vaudeville tour and will be seen here Sunday. Seymour and Dupree offer a musical comedy oddity, entitled "A Chinese Idyll." Hazel Haslam and Adina Wilson, the two well known dramatic motion picture stars, fresh from their latest screen triumphs, offer strong dramatic playlet splendidly staged, entitled, "A Night in The Mountains" from the pen of Ethel Clifford. A two reel Fox Comedy and a one reel News Weekly completes the bill.

THE SOCIAL FOLLIES
A record of many successful seasons is what the management of the Social Follies claims for his organization which comes to the Rialto theater for one night only, Friday, March 3.
The cast is headed by those jolly comedians, and princes of comedy, John Quigg, Sam Lewis and Karl Bowers, aided by Billy Bendon, and such well known ladies as Amelia Lovebridge, prima donna; Nettie Knice, ingenue and Ida Blanchard, a bewitching soubrette. Then, there is a chorus of twenty as pretty girls as you will find in many a day. Seat on sale Thursday.

By Popular Request, a Return Engagement of Best Picture of the Year

"We can reach across the table again, Mother."

The birds have flown. Sons and daughters, all pursuing their own separate careers in different corners of the globe. And the old, old tragedy of the lonely mother and father in the empty old nest is repeated before your eyes.

Civic Club Dance Successful Event

The dancing party given by the Department of Education of the Woman's Civic Club in the Elks hall last evening, was a most enjoyable affair. The hall looked bright and inviting with its yellow and blue decorations. Arranged upon the stage were tall floor lamps, palms, and cut flowers making an attractive background. The ladies in their richly tinted evening gowns lent much charm and beauty to the occasion.

The feeling of friendly hospitality which was so much in evidence was greatly enhanced by the lively strains of music furnished by Jimmie Johnston and his orchestra. Not only the dancers but the spectators as well thoroughly enjoyed the good music of the evening.

It was the opinion of all present that the committee in charge had maintained the standards of the former parties given by this department and in so doing has made this one a very delightful occasion.

SONS OF VETERANS AUXILIARY

At the meeting of the Sons of Veterans Auxiliary on Friday evening, there was a large attendance. Mrs. Katharine Wack, Patriotic instructor, was in charge of the program, which consisted of the following numbers:

POLITICAL EDUCATION DEPARTMENT

LESSON 19.

State Department of Health Continued.

By RUTH FULLER STEVENS.

1. Has the reorganization bill made any changes in the duties of the Public Health Council or in the organization of the divisions and bureaus of the Department?

Ans.—No. The duties of the Public Health Council remain same as do those of the different divisions. The change is simply in the centralizing the responsibility and authority in the office of the Director of the Department.

2. What is meant by the "divisions" of the Department?

Ans.—The divisions of the department are the units into which it is divided to carry on the work of the Department. They are: Division of Administration, Division of Hygiene, Division of Communicable Diseases, Division of Sanitary Engineering, Division of Laboratories, Division of Industrial Hygiene.

3. What are the duties of the Division of Administration?

Ans.—They are merely the routine duties of general administration, care of legal matters, office management and publicity.

4. What is the division of Hygiene?

Ans.—The division of Hygiene is made up of the Bureaus of Tuberculosis, Venereal Diseases, Public Health Nursing, Child Hygiene, and Hospitals.

The Bureau of Tuberculosis records reported cases of tuberculosis hospital admission and discharges, and also promotes the establishment of institutions for the care of tuberculosis and educational activities to prevent its spread.

Bureau of Venereal Diseases cares for the detection and treatment of carriers, establishes and maintains clinics for treatment, follows up sources of infection, and cares for the rehabilitation of prostitutes and carries on educational activities.

Bureau of Public Health Nursing has supervision of public health nursing throughout the state, establishes new nursing centers, works to develop higher standards of public health nursing as taught in schools and practiced in the field, investigates reported cases of inflammation of the eyes of new born children, has the nursing care of such cases and carries on prosecutions under law for the prevention of blindness.

Bureau of Child Hygiene conducts educational work in regard to preventive and remedial measures affecting the prenatal period, infancy and pre-school and school periods.

Bureau of Hospitals, cares for the registration of hospitals and the inspection of license of maternity hospitals.

5. What is the Division of Communicable Diseases?

Ans.—The division of Communicable diseases carries on the work of investigating epidemics, of individual cases for the purpose of diagnosis, recording statistics of communicable diseases, and the supervision of local health administration. It has one sub-division, that of the Bureau of Trachoma, which has charge of conducting Trachoma surveys and clinics.

6. What is the Division of Sanitary Engineering?

Ans.—The Division of Sanitary Engineering is the division which has to do with the investigation and inspection of public water supplies, and water purification systems, and of public sewerage and sewerage disposal systems, investigations of reported stream pollution, of general sanitary investigations, approval of plans for water supply and sewerage. It also has

Off To Sparkling Colorado With My Heart Filled With Appreciation to My Elyria Friends

During the last eight years I have enjoyed the patronage of thousands of people residing in and near Elyria. I want those people who purchased at my unpretentious store on Clark street to know that I sincerely appreciated their business. It is with regret that I leave Elyria but this move is imperative because of illness that requires residence to be established at Colorado Springs, Colo.

I have sold Slater's Shoe Store to Thurman Elliott who will conduct this business in the same manner, carrying the same high quality of footwear for men, women and children and disposing of it to satisfied purchasers at the lowest possible price.

If I ever should return to Elyria and engage in business I can look any purchaser during my eight years here in the eye for I know and they are positive, they received value. For the one greatest thing in merchandising is "Truth in advertising," and Slater's Shoe Store did as they advertised.

Again expressing my appreciation,
Very respectfully,
(signed) J. W. SLATER.

P. S.—Today winds up the business of J. W. Slater in Elyria. The store will be closed Monday, Tuesday, and Wednesday, and Thursday morning at eight o'clock it will open under the direction of the new proprietor.

ELYRIA-CLEVELAND BUS LINE STARTED

The steady growth of Elyria was brought to notice by the appearance of a substantial and commodious looking motor bus which is owned and operated by John Winnen who will be a citizen of Elyria very shortly. This bus makes regular trips between the Public Square of Elyria and Cleveland. Regular service will be made possible through the uninterrupted service policies of The Union Sales Company, distributors for the Maccar demountable power plant chassis for the entire state of Ohio. The Union Sales Company are located at 4749 Hough avenue, Cleveland, Ohio.

The Maccar truck with the demountable power plant in one unit includes the radiator, motor, clutch, transmission and steering column which can be removed in one hour's time and a new power plant put in its place removing the necessity of laying this bus up for an indefinite time for repairs. The Union Sales Company carry a complete line of these power plants in stock and loan them to their customers for \$5.00 per day thereby giving uninterrupted service. This chassis is also equipped with the famous Mueller cushion type shock absorber taking away the road shocks which do great damage to a car of this type.

The body was manufactured by The Jas. Holan Mfg. Company of Cleveland who are one of the largest body builders in the state. No effort was spared in the design and construction of this body to produce maximum safety and supreme comfort. All materials were specially selected for strength. Special springs and the best grade of hair and leather were used in all cushions. The Jas. Holan Mfg. Company are designers and builders of all kinds of bodies used for transportation and hauling.

The wheels on this chassis are a cushion wheel with four inches of very resilient rubber between the band and felloe, and are equipped with semi-pneumatic tire which combination makes it ride as easy as a heavy pneumatic tire.

MOTOR DIGEST

Gasoline sleighs are replacing dog sleds in Alaska.

A school for automobile design has been established in Italy.

Practically no foreign automobiles are being imported into Germany.

Upward of \$1,500,000 is spent each week in New York City for taxi rides.

American made passenger automobiles are selling at prices ranging from \$319 to \$11,000.

There are nine times as many passenger automobiles in the United States as there are motor trucks.

Mexico is literally flooded with stolen automobiles, which are sold for 50 per cent. of their actual value.

Jackie Coogan, age 6, the youthful motion picture player, has a specially-built passenger automobile costing \$10,000.

Fulman buses are regularly operated from London to seashore resorts. A valet and maid accompany each car.

The Automobile Club of America is insuring 25,000 members for \$1500 each in case of accidental death or serious accident.

In South America, Brazil has a motor vehicle for every 1497 persons; Argentina, one for every 296; Chile, one for every 455.

On the Pacific coast it is possible to travel in buses from Mexico, California, to Portland, Ore., a distance of 1000 miles.

"Thank-you-mams" have been suggested for highways in New York State as a scheme to prevent violations of the automobile speed laws.

Electric automobiles have a speed of 25 miles an hour. The driving radius is 70 to 80 miles in level country and from 50 to 60 miles in hilly districts.

France has 60 manufacturers of motor vehicles, with a production capacity of 53,000 cars per annum. Eighty thousand men are employed in the industry.

The average American passenger automobile has a wheel base of 122 inches, carries 33x4-inch tires and weighs 3100 pounds. The engine is of six cylinders.

Canadian customs officials are investigating reports that more than 17,000 automobiles stolen in the United States are being smuggled into Canada for sale.

It is planned in London to do away with all railways above ground and the old roadbeds are to be converted into highways or speedways for motor traffic.

A traffic control system has been produced which is a geared clock work mechanism. The "stop" or "go" sign is changed mechanically at regular intervals.

With approximately 350,000 families in Detroit, Mich., there is one passenger automobile to each three families. This is said to be the highest ratio in any city in the country.

An automobile "rolling canteen" is being designed for the Department of Public Safety of Philadelphia, Pa., to be used for distributing hot coffee and sandwiches to police and firemen at conflagrations.

Of the country's estimated motor vehicle registration, the Middle Western States lead with 3,397,036 cars. The Eastern States rank second with 2,068,246 cars and the Southern States third with 2,044,009 cars.

One of the leading department stores in St. Louis, Mo., is planning to erect a four story garage, in which the automobiles of its customers may be parked while they are shopping. The proposed garage will accommodate 400 cars.

In Germany, Red Cross first aid stations are making their appearance on the corners of Berlin streets where traffic is heavy. The stands contain bandages, lint and other medical supplies every week a blue-equipper for any emergency.

Automobile tax fees for a medium sized four-cylinder car are as low as \$5 annually in some parts of the United States. The same car in England would call for a tax of \$62; in Spain, \$46; Belgium, \$18; France, \$124; and Italy, \$400.

Seated at the wheel of a big motor truck and followed by a fleet of automobiles, Rev. E. J. Prescott, a Unitarian pastor of North Andover, Mass., goes out every Sunday morning and gathers his Sunday school pupils within a radius of seven miles.

An automobile speedway race, scheduled for Armistice Day, November 11, 1922, over the Greater San Francisco Speedway, at San Carlos, Calif., offers a purse of \$50,000 and lap prizes of \$25,000. It is believed that this is the largest prize money ever listed for such a contest.

For the first time on record a Pennsylvania motorist was recently fined \$10 and costs in Maryland for carrying too many licenses on his car. The victim, a Philadelphian, does business in Maryland, Delaware and Pennsylvania, and his

Simplicity Marks Auto Progress

Endurance, freedom from repairs, simplicity. That is what the motorist wants and that is what the motor car manufacturer promises him as automobile development proceeds.

Signs of this development appear in almost every new model presented this year. There are the individual step instead of the running board, more and easier control from the dash, rear signal lights, fuel economizers and many other changes which make for ease and comfort in riding.

Most attention is being paid to the motor, for the simplification of its parts and economy of operation.

Scarcity of fuel in the future may send every present day engine to the scrap heap to be replaced by a more suitable type.

But until then, engineers are seeking to bring motor and fuel costs down as low as possible.

"Eventually," says Colonel Vincent, "the demand for greater fuel economy may develop, as it has in England and continental countries, cars of less weight and horsepower."

Already there is a movement in this direction, but until our public highways are materially improved, I do not believe it will be a dominant factor.

Changes in body design will depend on the public, says Colonel Vincent's opinion. There will be no unwarranted departures from present lines.

"Unless there springs up some pronounced public preference for some new motor car quality," he adds, the manufacturer's efforts during the next decade will be invested in refining and perfecting the already existing design."

Every piece of good news for a big institution is good news for all of the United States. The Dodge Bros. Auto Co., will presently finish building its Dodge car number 700,000. This shows that the United States still offers opportunity. It is only a few years since the Dodge brothers opened a machine shop in Detroit with \$1200 in cash and a little machinery. To jump from that to manufacturing a thousand million dollars' worth of automobiles in less than a quarter the length of an ordinary life-time is something worth talking about.

SPRING LUBRICANT

In lubricating automobile springs the greatest trouble is found in keeping the lubricant from being squeezed out under pressure. The compound that obviates this is found in a graphite and beeswax mixed to a paste and spread upon each leaf. Obviously the spring must be taken apart to apply this lubricant. A serious scarcity of reformed reformers is reported.

car carried the license plates of those three states. According to the Maryland law, only two licenses may be displayed at one time.

An automobile owner, when paying his income tax may deduct from the gross income the amount paid for state license fee. He may also deduct the tax on gasoline, which is now imposed in a number of states in the Union. The cost of a new car and fines paid for violation while the car is being driven for pleasure purposes are not deductible items.

CLUB PROTESTS GAS, OIL TAX

Believing that the proposed tariff of 55 cents a barrel on crude oil, 25 cents a barrel on fuel oil and one dollar to three dollars on asphalt, if successful, would adversely affect the individual automobile owners of the country by adding to their charges for upkeep, maintenance and taxation burdens, the County Automobile Club with other affiliated American Automobile Association clubs throughout the United States, has placed itself on record in opposition to such legislation.

The club's position is that: "The entire gasoline supply would bear an additional burden cost of about \$140,000,000. This burden would fall upon the consumers who are American users of automobiles, over 10,000,000 in number. Organized motorists of our country are seriously objecting to any such tariff and we are rightly joining with others in our protest."

ALL AUTOMOBILES ARE BUILT EXACTLY ALIKE

"Automobile owners and the public generally do not fully appreciate the ever-increasing utility of the automobile," says D. D. Smith of Andress & Smith.

"Practically all inconvenience and trouble has been removed from the well night miraculous operation of the motor car. The machine that a few years ago was a highly speculative and quite often impractical proposition has been perfected now to the point where it functions every day smoothly and powerfully."

"This certainty of performance has been given to the automobile by the exercise of a sincere interest by the dealer in the owner's requirements. The manufacturer makes a thousand cars, all identical. It's the dealer's business to see that they all give complete satisfaction, and the fact that they are doing so vividly shows how much more than merely a sales organization the modern dealer must be."

New Closed Car Plant Finished

A definite expectation of an unusually heavy demand for the sedan and coupe throughout the year is indicated by Duke Brothers recent completion of an immense new closed body plant. The production capacity is said to have been practically doubled and dealers are being assured that the factory will do its utmost to keep pace with the usual rush of spring and summer orders.

Despite the most strenuous efforts, such as a greatly enlarged working force and long night shifts, it was impossible to catch up with the demand for several months after the improved type of sedan and coupe made their appearance last fall. From this enthusiastic reception of the improved cars it was evident that much greater facilities would be required, with the natural result that the new closed body plant was hurried to completion in ample time to meet the combined emergency brought about by spring and a sharp price reduction.

AMHERST FORDS WIN, CLOTHIERS LOSE, FRIDAY

AMHERST, Feb. 25.—The Amherst Ford Sales basketball team defeated the Port Clinton Ker-o-el Club 41-32, while the Plato Clothiers lost to the Birmingham Independents by a 38-13 score.

The flivver-Port Clinton game started out like a walk away for the locals. Friend and Hearn each caging two field goals in succession. The visitors came back strong, however, and the half ended 17-15, the Fords in the lead.

In the second period the locals again spurred and ran the score up to 24. The Port City lads, however, opened up and scored four field goals and evened up the score 24 allie. This was the only time that the visitors tied the score although for some time they were within one point of doing so.

Hearn at guard and Friend at forward tied for honors in the scoring for the locals, each caging six baskets. Both played stellar games at guard and were the shining lights of the locals. H. Miller, of the visitors sparkled also scoring 20 points, four of which were made from the foul line out of five attempts. C. Miller, the visitor's lanky tip-off man was held to two field goals although he camped under the basket the entire game. The Clinton outfit has requested that the flivvers play another game with them at Port Clinton. The locals defeated them earlier in the season by a 25-14 score.

Oppelt, of Lorain, refereed the game and received the approval of the fans in his decisions.

Plato Clothiers tumbled before the Birmingham Independents to the sad tune of 38-13 in a farcical game. The visitors man-handled by a little teamwork and a lot of luck to score the first few points. The locals who missed Hearn and Wiseman like the earth would miss the sun, literally blew up. The more points the visitors scored the worse the Clothiers became. In the second period the locals lost their tempers and having lost their shooting eye and heads ages ago, were helpless before the craft farmers. The rough play of the locals availed nothing and they were trailing hopelessly in the rear during the entire second half. Cook of the visitors played a good game at forward. Leitenberger of the Ford outfit played in the second and third quarters with the flivvers but with no assistance was unable to corral the points.

IS DEMPSEY TRAINING, A MAN TO DEFEAT HIMSELF?

Jack Dempsey, at right, giving Ralph Smith some pointers in Los Angeles. Maybe Jack Dempsey is getting tired of waiting for someone else to develop a man who can lick him. This picture might indicate that. At least Dempsey has taken a fancy to Ralph Smith, elongated glove swinger, who holds the heavyweight championship of the Los Angeles Athletic club, and is giving him an intensive training course on the game of give and take—with emphasis on the give. Smith shows promise, say critics. He is six feet seven inches tall.

FILLING OF PECK'S SACRIFICE SHOES ONE KNOTTY PROBLEM HUGGINS' FACES

Aaron Ward in the shoes he may be called on to fill—Peckinpaugh's. Finding outfielders and sluggers to hold down the jobs of Babe Ruth and Bob Meusel the foremost of the season and the strengthening of the pitching staff ought to be worries enough for Miller Huggins, Yankee manager. But those tasks don't end his troubles. When he landed Roger Peckinpaugh to slip away he lost one of the most formidable sacrifice hitters—second place men—in the game. Coming ahead of Ruth, Meusel, Phip and Baker, Roger threw terror into pitchers hearts by his ability to lay one down or slam one out. Aaron Ward and Everett Scott are the likely candidates for that berth now.

SPORT SNAP SHOTS

Jack Dempsey's trip to Europe to fight Georges Carpentier is not likely to materialize. Although the Frenchman won with a knockout in four rounds he was much nearer defeat than the cable told. He showed that he could not stand body punishment and that he had lost much of his speed of hand and foot.

As for the English heavyweights, it is doubtful whether any of them could be dragged into the ring with Dempsey even for a big beer's end. If the champion was to be matched with Beckett or Wells or Goddard there would be a general outcry against the affair, for English boxing followers have ceased to hold delusions in regard to the ability of their big men.

It is a fact that English fans often become greatly excited over matches that American fans would not give more than a passing thought to. It is so seldom that they see a real fighter on the other side their standard is a great deal lower than over here. But the English fan will not fall for a bunk match when he knows it is the bunk as his American cousin does.

Lightweight Champion Benny Leonard is now the rightful owner of the Tex Rickard diamond studded belt. Leonard is defending his title successfully three times in decision bouts at Madison Square Garden, New York, according to the rules regarding the ownership of championship belts, that the holder must defend his title and win three consecutive victories before the belt becomes his property. Leonard's first championship bout at the Garden was with Joe Well-squeeze a big guaranty out of an English promoter a protest would go up that could be heard across the Atlantic.

Aside from the difficulty over the purse there are other reasons why a Dempsey-Carpentier bout is not likely to take place. Carpentier

ST. JOHN'S DEFEAT CONGREGATIONAL 5

St. John's Lutheran church defeated the First Congregational church team last evening at basketball at the Y. M. C. A. by a score of 21 to 6. Dracert and Huebner played a stellar game, and were the leading point gainers for the Lutherans, while Day was the big noise for the Congregationals, scoring all their points.

Only one game was played in Church League this week. The Grace Lutherans forfeited to the Methodists and the Church of Christ asked to have their game with the Second Congregationals postponed.

Oberlin Hi Wins From Wellington

OBERLIN, Feb. 25.—Oberlin High basketball team defeated the Wellington High team last night at the gym by a score of 22 to 17. There were no outstanding features of the game except the passing, which was good on both sides. Wellington strove hard to win, and the Oberlin boys had to extend themselves to retain their lead.

ELYRIA 'Y' AND AMHERST TEAM CLASH TONIGHT

At 8 o'clock tonight the 'Y' team of Elyria takes on the much heard of Ford Service basketball team from the town of Amherst. The game should be one that is full of thrills for both teams are out to add a victory to their credit and to avenge a certain feeling of rivalry that has sprung up between them.

The 'Y' team will probably line up with Reynolds and Rankin at guards. Geals at center, and Granger and Keller forwards. This makes a good, fast, passing team when all the players are in. It will show the spectators a real game.

The Fords have such men as Mitchell and Val Haggie on their team and that is enough to say that if the whole team plays like these two men the fur will fly thick and fast.

LARGE INTER-CHURCH BASKET AND VOLLEY BALL MEET PLANNED

OBERLIN, Feb. 25.—An Oberlin inter-church tournament will be held the week beginning March 13. The plan is to have the competing churches enter six teams each—basketball and volley ball teams of 7th and 8th grade boys, 1st, and 2nd years high school boys, and 3rd and 4th year high school boys. The college gymnasium is being used certain nights each week for practice. M. E. Curtis, a college student, is coaching the Methodist boys.

Eagles Take Two From the Comets

The Comets lost two out of three to the Eagles last evening at the Gala alleys, but they put up a hard fight in the last two games and succeeded in taking one of them. In the first game the Eagles rolled the high score of 1027.

JURY TRIALS SET FOR NEXT MONDAY

Neither branch of court were in session this morning, and there will be no jury trials until Monday.

On that day two cases are set for hearing. The Ammer Dairy Co. is suing the Richwine Ice Cream Co. for \$2,413.50 claimed to be due it for milk and cream while the Richwine Co. declares that the milk and cream furnished was not of the proper percentage in richness agreed upon.

The second case is that of Henry Bennader vs. John V. Keeler. The plaintiff is suing to collect \$1,750 claimed to be due on account of an automobile collision.
